**Confirmation is sent within three working days of receipt of order; please contact if not received.**

Delivery will follow in up to 6 working weeks (although this may be extended).

All goods are delivered with assembly/installation instructions and applicable fastenings.

Deliveries are made by singular operatives, using either our own transport or third party carriers. Please note that we are unable to make deliveries at weekends and have limited capability regarding the time of day. Customers are contacted in advance to make the necessary arrangements.

It is the customer's responsibility to ensure there is suitable access to off-load points for vehicles. Delivery excludes off-loading so suitable manpower will need to be available for that (drivers may assist where possible) and moving to desired location.

**Please note:**

We would be prepared to supply these goods to you on an account basis, with our invoice payable within 28 days. If purchased privately, we would require payment prior to manufacture.

It is important to note that no timber treatment is needed to protect these seats and the original colour will weather to a natural silver-grey. If required, it can be lightly sanded and re-stained periodically.

The timber is a natural material and there will be variances in shade between boards/slats and even across sections.
