No comment.

APPENDIX A PS/[25/00714/DOM](#) - 4 Oak Way, Ifold, Loxwood

Two storey rear and single storey side extensions, and associated works. Installation of entrance gates.

Object. The gate design is not in keeping with the street scene in a rural location and has an urbanising effect on the location. The Plaistow and Ifold Tree warden is concerned that the proximity of the proposed extension to the trees listed with TPOs will affect both the roots of these trees as well as their expanding canopy which will overhang the extension. This is especially obvious on the right-hand side of the proposed extension.

The Landscape and Visual appraisal is dated April 2020 and is in relation to a 9-unit site proposal albeit the current 15-unit proposal appears on a substituted map. The appraisal should be carried out again for the correct proposal to make a realistic assessment.

The Statement of Consultation letter to residents refers to this site as allocated in the Neighbourhood Plan 2014 -2029. The Neighbourhood Plan was withdrawn due to an HRA and as such the letter was misleading as the site was never tested at referendum. The situation and proposal has changed and the Planning Committee consider the site should be tested against other sites to arise through the CDC Local Development Scheme process as set out in the Emerging Local Plan.

The Parish Council Planning Committee is unable to consider the application properly until all documents are available and drafted according to the proposal, they ask that the documents be updated, and a re-consultation undergone given the short time until the expiry of the original consultation period, or else an extension of the consultation period to allow this full evaluation.

Application in Loxwood Parish:

APPENDIX E LX/[25/00631/PIP](#) - Permission in Principle Land East Of Peacocks, Plaistow Road, Loxwood.
One detached two storey dwelling.

Object. The proposal is outside the settlement and constitutes development in the open countryside which is contrary to Policy 45 of the CDC Local Plan.

In addition, the Lighting Assessment (page 9) refers to a slight slope on the site North to South ascertained by a walkover survey.
