PC/17/26

Highways Matters:

1. Cox's Pond Road Barrier:

Recommendation: To receive the update following a meeting on site with WSCC Highways Officer.

The Clerk advised she had met with a Highways Officer regarding the potential hazard of the gap adjacent to Cox's Pond in the road barrier and that the Highways Officer was to investigate whether Highways would fill in the gap and come back to the Parish Council at the end of February. Regarding improving the barrier to a more conservation area sympathetic looking barrier, the Highways Officer confirmed WSCC Highways would not pay for this but if the Parish Council wanted to fund this there may be a possibility. He would investigate if there were any more appropriate barriers that could be installed.

2. Flooding along Plaistow Road

Recommendation: To receive the draft letter [APPENDIX A](#) to WSCC Highways and resolve approval or approval after amendment and query of WSCC Dunton to whom it should be addressed within WSCC Highways.

RESOLVED to submit the letter to Highways.

3. TRO 40mph for Plaistow Road/ B2133 Junction area. - [See Clerks report](#)

Recommendation: To note the consultation currently running from Loxwood Parish Council as to a reduction of the speed limit to 40mph from 60mph according to the location map and discuss and resolve if appropriate to respond as a Parish Council.

RESOLVED to support the application as an important safety improvement for those of the Parish who frequently use the junction.

PC/18/26

Replacement of Plaistow Green Memorial Tree.

[See Clerks report](#)

Recommendation: To discuss with the tree warden the purchase of a copper beech for the location described on the Green at Plaistow.

RESOLVED to accept the recommendations of the Tree Warden and to purchase a 3m copper beech for Plaistow Green to replace the willow that had been a memorial tree that had died.

Planning Matters1. [22/02346/OUT](#) **Foxbridge Golf Club Foxbridge Lane Plaistow RH14 0LB**

Outline application for a wellbeing and leisure development comprising up to 121 holiday units; the construction of a spa with accommodation of up to 50 bedrooms; the conversion of the former clubhouse into a restaurant and farm shop; the formation of a new vehicular access from Foxbridge Lane, new internal roads, footpaths, cycle routes and car parking areas; the construction of a concierge building and new hard and soft landscaping, including the formation of new ponds.

See Clerk's Report:

Recommendation: - To note the extension of consultation to 18th March 2026 on this application for comments and that the earliest CDC Planning Committee date for this proposal to be considered is now 7th April 2026.

RESOLVED as noted.

Recommendation: - To RESOLVE as ratified the submission of the further letters together with supporting documents of objection to CDC regarding this application submitted by the Clerk under delegated authority: -

- Letter dated 26th January 2026
- Letter dated 19th January 2026 and enclosure "No Exceptional Case for Large Scale Tourist Site"
- Letter dated 16th Jaurya2026 and enclosures "Deficiencies and Failures in the Assessment of Bats" and "Consolidated Parish Council Objections".
- Letter dated 15th January 2026
- Letter dated 19th December 2026.

The Chair thanked the Chair of Loxwood Parish Council for arranging the submission of a letter of objection regarding this application from Loxwood Parish Council, their support was very much appreciated.

RESOLVED as approved.

(A draft letter had been circulated by the Clerk regarding the serviced holiday accommodation available within a 7 mile radius of Foxbridge. Data had been supplied by Cllr Denyer in both 2022 and 2026 and the comparison strongly suggested saturation point had been reached for the area. Further details would be added to the letter including a graph from Air B&B and a further draft included on the March 2026 agenda. The final letter to be copied to the Economic development team at CDC for their appraisal of the data.)

Recommendation: - To note the support from Wisborough Green Parish Council and their offer to collaborate regarding the best use of the three minutes Parish Council time at the CDC Committee Meeting.

RESOLVED as noted. CDC Cllr Todhunter suggested however that Wisborough Green PC may not be invited to speak given that Foxbridge was not in their Parish.

Recommendation: - To note the further correspondence received from a resident in connection with this planning application and resolve further Parish Council submissions to CDC if appropriate (email correspondence circulated separately).

Loxwood Parish Council had submitted an objection based on a comparison with the Crouchlands appeal and therefore the Parish Council felt the matters raised by this resident had now been addressed.

2. **Neighbourhood Plan.**

Recommendation: - To note the Regulation 14 Neighbourhood Plan is now being consulted upon until 31st March 2026.

RESOLVED as noted.

Recommendation: - To note the comments from the CDC NP Officer on December 2026 NPPF and its application to this Neighbourhood Plan.

RESOLVED as noted that if Regulation 15 was reached ahead of the adoption of NPPF 2026 then the Neighbourhood Plan would be able to progress and not have to return to Regulation 14 consultation with the amendments that the NPPF 26 might cause.

3. **CDC Planning Update Meeting 4th February 2026**

Recommendation: - To receive an update on this meeting on 4th February 2026 from Cllr Jordan and Woolf.

Cllr Woolf reported on the meeting. As a background the meeting was called by CDC to manage Parish Council expectations regarding the approach to planning applications for new development. The examination of the Local Plan and subsequent adoption was contingent on the district increasing its housing numbers from July 2026. To ensure a 5 year housing supply 600 more houses per year had to be added to the district's supply together with an additional 120 as a 20 % buffer. If the supply falls below a 5 year supply, then the district will lose control of planning as it will not have a sufficient supply and speculative development will occur. CDC will be consulting as to how to boost supply and measures such as allowing developments

outside settlement areas but adjacent to settlement boundaries. A call for sites will be made shortly.

Developers are being encouraged to engage with Parish Councils.

On a different matter all Parish Councils present appeared to complain about the approach to planning consultations by WSCC Highways. All applications seem to be approved by them regardless of local conditions and indeed no site visits seemed to take place.

4. Land North of Rumbold's Lane

Recommendation: Following pre-application discussions with the applicant for this planning proposal to discuss a potential route for village foot access from the site notwithstanding that applying the Localism Act 2011 the discussions on this subject do not predetermine any later decision of the Council with regard to this site, that the council is not committing itself to any particular outcome.

RESOLVED to obtain feedback from the National Trust on this issue and send a holding email to the developer.

PC/20/26
